Dare to make an impact?

YOUR ROLE

- Join our Digital Business group who is supporting our market leading Adhesives Technologies division, as SAP Master Data Consultant
- End-to-End steering (Design, coordinate development & Test) of digital solutions aimed at Improving the Material master data processes
- Opportunity to work on latest technologies like SAP BTP (Business Technology Platform), SAP MDG in addition to custom product development
- Gather requirements from our business stakeholders and map out solution concepts
- Configure SAP master data and related custom applications and oversee the implementation of functional enhancements with our team of developers
- Collaborate with key users in developing and executing test plans and prepare training content

YOUR SKILLS

- Bachelor's degree in information systems, Business Administration, or a related field
- 7+ years of proven experience as SAP Functional Consultant with focus on Master Data Management, preferably Material Master and dependent objects
- Have hands-on expertise in configuring and customizing master data solutions
- Capable of developing solution concepts to meet business requirements and presenting these concepts to stakeholders
- Experience in testing of developed solutions (creating test cases, performing unit / integration testing / user acceptance testing (UAT))
- Strong analytical and problem-solving skills, with the ability to analyze data to identify trends, anomalies, and opportunities for improvement
- Fluent English skills
